What is this product?

Type

This product is an investment fund. Architas Selection Equity is a sub-fund of Architas Multi-Manager Global Funds Unit Trust, an open-ended unit trust with segregated liability between its sub-funds authorised by the Central Bank of Ireland pursuant to the provisions of the UCITS Regulations/the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (S.I. No. 352 of 2011), as may be amended from time to time.

Objectives

Investment objective Architas Selection Equity seeks to maximise total return from income and capital growth mainly through investing indirectly or directly in equity and/or equity-related securities.

Investment policy The Fund is an actively managed fund of funds. The Fund pursues its aim mainly by investing in other funds ("underlying funds"). Underlying funds are selected principally on the basis of our assessment of: the consistency of their investment returns; the risks related to their strategy; the strength of their investment process; and the degree to which they complement each other within the portfolio.

The underlying funds in which the Fund will invest in may be either passively or actively managed. The underlying funds may invest in the following types of instrument: shares and share-related securities (bank certificates representing a specified number of shares in a company). The underlying funds may also invest in tradable debt which can be easily converted into cash (money-market instruments) and other asset classes: including financial contracts (financial derivative instruments – "FDI"); financial indices and/or currencies.

The Fund may also invest directly in financial instruments including: shares; share-related securities and money-market instruments.

The Fund is not subject to any limitation on the proportion of its net assets that may be invested in any one country, region or sector.

The Fund may invest in FDI to achieve the investment objective, to reduce risk or manage the fund more efficiently.

The Fund does not intend to use FDI extensively or primarily for investment purposes.

Benchmark use The Fund does not have a benchmark.

Redemption and Dealing Units of the Fund may be redeemed on demand, with dealing normally on a daily basis.

Distribution Policy We will automatically include income from the Fund's investments in the value of your units.

Intended retail investor

This product is suitable for investors seeking to maximise total return from income and capital growth over a medium to long-term horizon and who are willing to accept a medium to high level of volatility.

Practical information

Depository The fund depository is State Street Custodial Services (Ireland) Limited, 78 Sir John Rogerson's Quay, Dublin 2, Ireland.

Term

The Fund has no maturity date. All the units of the Fund may be redeemed at the discretion of Architas Multi-Manager Europe Limited, if, after the first anniversary of the first issue of the Units in the Fund, the Net Asset Value of the Fund falls, for a period of 30 consecutive days or more, below €840,000 or its foreign currency equivalent. A unitholder notification will be sent at least one month prior to the actual termination date.

Further information More detailed information on this Fund, such as the prospectus and the latest annual and semi-annual report, can be obtained, in English, free of charge from Architas Multi-Manager Europe Limited, the central administrator or the Fund's distributors. The net asset value per unit is available at <https://select.axa-im.ie>, or on request from the manager.

You may exchange units free of charge to the same or another unit class of another fund as the manager may permit. Please refer to the sections entitled "Switching" in the prospectus and Fund supplement.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity of Architas Multi-Manager Europe Limited to pay you.

Be aware of currency risk. You may receive payments in a different currency, so the final return you will get depends on

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between December 2021 and September 2023.

Moderate: this type of scenario occurred for an investment between August 2014 and August 2019.

Favourable: this type of scenario occurred for an investment between June 2016 and June 2021.

What happens if Architas Multi-Manager Europe Limited is unable to pay out?

For your protection the fund's assets are held with a separate company, a depository, so the fund's ability to pay out would not be affected by the insolvency of Architas Multi-Manager Europe Limited. If the fund is terminated or wound up, the depository would liquidate the investments and distribute the proceeds to investors. You may lose part or all of your investment. You are not covered by any national compensation scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 EUR is invested.

Example Investment 10,000 EUR	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	216 EUR	1,082 EUR
Annual cost impact*	2.2%	2.3% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.8% before costs and 5.5% after costs.
