What is this product?

Type

This product is an investment fund. Architas World ex-Japan Passive Bond Fund is a sub-fund of Architas Multi-Manager Global Funds Unit Trust, an open-ended unit trust with segregated liability between its sub-funds authorised by the Central Bank of Ireland pursuant to the provisions of the UCITS Regulations/the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (S.I. No. 352 of 2011), as may be amended from time to time.

Objectives

Investment objective The aim of the Fund is to provide investors with a total return, taking into account both capital and income returns, which reflects, before fees and expenses, the return of the Index.

Investment policy The Fund is an index tracker fund, meaning it is a passive fund which aims to replicate the FTSE® Non-JPY World Government Bond Index through an optimised sampling approach. The Index measures the performance of fixed-rate, local currency, investment-grade sovereign bonds from over 20 countries worldwide.

The Fund can invest up to 100% of its Net Asset Value in government debt securities issued by the United States, France, Germany, United Kingdom, Spain and Italy.

The Fund will not invest more than 30% of its net assets in below investment grade fixed income securities.

The Fund may employ derivatives to achieve the investment objective, to reduce risk or manage the fund more efficiently. The Fund does not intend to use FDI extensively or primarily for investment purposes.

Benchmark use The Fund is an index tracker fund, meaning it is a passive fund which aims to replicate the FTSE® Non-JPY World Government Bond Index through an optimised sampling approach. It is anticipated that, under normal market circumstances, the annualised forecasted tracking error of Architas World ex-Japan Passive Bond Fund will be up to 0.60%. Further information on the composition of the Index may be obtained at <https://www.ftserussell.com/analytics/factsheets/home/constituentsweights?groupname=fixed%20income>. Note some factors are

likely to affect the ability of the Fund to track the performance of the benchmark, such as transaction costs and dividend reinvestment etc.

Redemption and Dealing Units of the Fund may be redeemed on demand, with dealing normally on a daily basis.

Distribution Policy We will automatically include income from the Fund's investments in the value of your units.

Intended retail investor

This product is suitable for investors seeking to maximise total return from income and capital growth over a medium to long-term horizon and who are willing to accept a low to medium level of volatility.

Practical information

Depository The fund depository is State Street Custodial Services (Ireland) Limited, 78 Sir John Rogerson's Quay, Dublin 2, Ireland.

Term

The Fund has no maturity date. All the units of the Fund may be redeemed at the discretion of Architas Multi-Manager Europe Limited, if, after the first anniversary of the first issue of the Units in the Fund, the Net Asset Value of the Fund falls, for a period of 30 consecutive days or more, below €840,000 or its foreign currency equivalent. A unitholder notification will be sent at least one month prior to the actual termination date.

Further information More detailed information on this Fund, such as the prospectus and the latest annual and semi-annual report, can be obtained, in English, free of charge from Architas Multi-Manager Europe Limited, the central administrator or the Fund's distributors. The net asset value per unit is available at <https://select.axa-im.ie>, or on request from the manager.

You may exchange units free of charge to the same or another unit class of another fund as the manager may permit. Please refer to the sections entitled "Switching" in the prospectus and Fund supplement.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will

lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity of Architas Multi-Manager Europe Limited to pay you.

Be aware of currency risk. You may receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

More information in relation to risks in general may be found in the "Risk Factors" section of the prospectus.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between December 2014 and December 2019.

Moderate: this type of scenario occurred for an investment between July 2017 and July 2022.

Favourable: this type of scenario occurred for an investment between June 2019 and June 2024.

What happens if Architas Multi-Manager Europe Limited is unable to pay out?

For your protection the fund's assets are held with a separate company, a depositary, so the fund's ability to pay out would not be affected by the insolvency of Architas Multi-Manager Europe Limited. If the fund is terminated or wound up, the depositary would liquidate the investments and distribute the proceeds to investors. You may lose part or all of your investment. You are not covered by any national compensation scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 JPY is invested.

Example Investment 10,000 JPY	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	38 JPY	190 JPY
Annual cost impact*	0.4%	0.4% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.6% before costs and 3.2% after costs.
