Accurate as of: 9 February 2024

PAST PERFORMANCE

Past performance is not a reliable indicator of future performance. Markets could develop very differently in the future.

This chart shows the fund's performance as the percentage loss or gain per year over the last 10 years.

It can help you to assess how the fund has been managed in the past.

A The Past Performance shown is from Share Class R, another share class within the Fund. This is because Share Class I has been recently launched and does not have any past performance for this period. Share Class I has annual charges which are 1.40% lower than Share Class R.

- Performance data has been calculated including tax, ongoing charges and portfolio transaction costs and excluding entry and exit charges, in EUR.
- Where no past performance is shown there was insufficient data available in that year to provide performance.
- Sub-Fund launch date: 19/07/2011.
- Unit Class launch date: 08/06/2016.
